

**Hydraulics with Difference**  
**Canara Hydraulics Private Limited**

## ▶ COMPANY PROFILE

Established in the year 1991, **Canara Hydraulics** is one of the leading designers & manufacturers of Hydraulic Cylinders, Hydraulic Power Packs, **now focussing on Global business**. We have a well planned and well equipped manufacturing facility to design, develop and produce various ranges of Hydraulic Cylinders, Hydraulic Power Packs, Hydraulic Presses and Hydraulic Precision Components. We have an excellent team of engineers in our Company to execute the orders within the specified time and above the quality standards. Our commitment to maintain International Quality Standards ensures reliability and better performance of our Hydraulic products.

**Canara Hydraulics is an ISO 9001:2000 Certified company which focuses on quality in order to gain a competitive edge of the global markets.**

### ▶ OUR VISION

Our visionary policy is purely mounted on customer satisfaction and this can be obtained only through speedy innovations, continuous improvement in Quality, unmatched customer services and providing them high standard quality products at affordable price.

### ▶ OUR TEAM

Our team has qualified Engineers and Professionals who have expert knowledge of Hydraulics, Sealing systems and Mechanical properties with a focus on Innovation, which ensures maximum performance and efficiency of the products.

### ▶ OUR QUALITY POLICY

Canara Hydraulics maintains the highest standards of quality at every stage of our process to ensure zero defect products. Stringent inspection and monitoring is performed on all manufacturing processes.

**"WE AT CANARA HYDRAULICS PRIVATE LIMITED WILL STRIVE TOWARDS CUSTOMER SATISFACTION BY ACHIEVING BEST QUALITY, COST AND DELIVERY THROUGH DEDICATION AND DELIGENT EFFORT WITH CONTINUAL IMPROVEMENT AND MARCH TOWARDS WORLD CLASS MANUFACTURER OF HYDRAULIC CYLINDERS AND SYSTEMS".**

### ▶ QUALITY ASSURANCE

Quality Assurance is an integral part of our manufacturing process, beginning with the selection and development of best machinery and production methods along with inspection at every stage right from raw material to end products.

All our machines are periodically checked by our Quality department professionals to ensure faultless and trouble free operations of the components. We test 100%, all our hydraulic products, to its maximum working pressure and as per our standard testing procedure.

### ▶ R & D

The R&D dept. is headed by a group of experienced and highly qualified professionals, who assist us through their enduring efforts using latest softwares and adopting **ISO / CETOP standards** in developing solutions pertaining to hydraulic systems and other related mechanisms. The continuous effort made by the R&D unit helps the company for the betterment of Quality and has assisted the company by creating a range of products to the latest needs of the Industry.

### ▶ OUR PRODUCT RANGE

We have the extensive range of Hydraulic Cylinders and Power Packs in our range of products which are widely used in varities of applications like Material handling, Steel mill equipments, Mobile and Construction equipments, Drilling and Mining applications etc.

#### I. Hydraulic Cylinders.

Canara Hydraulics brings you a variety of hydraulic cylinders with advanced features and trouble free functionality. All the cylinders are designed and manufactured keeping in mind the Customer's application and specifications.

##### **Our range of Cylinders type includes:**

Tie rod type – for Machine tools and Industrial applications. **Heavy duty mill type** – for **Steel plants**. Welded and Threaded type – for Industrial as well as Mobile application and Material handling equipments. Telescopic Cylinders – for Garbage compactors and various other applications. **Double ended / Thro rod cylinders** – for **Special applications in Mobile / Material handling equipments and Defense equipments**. Ram Type cylinders - for Induction furnaces and other applications.

**Special hydraulic cylinders are also manufactured against specific requirements from the customers.**

#### II. Hydraulic Power Packs

We are specialized in manufacturing of standard and custom built Hydraulic power packs. We provide Hydraulic power packs for Material handling applications, Machine tool clamps, Lifting devices, Furnace doors, Hydraulic Presses, Steel mill applications etc.. CHPL's expertise in building wide range of Power Packs using indigenous and imported elements / Control valves.

**Canara Hydraulics" has developed the Hydraulic cylinders of various ranges and for various sectors of requirements. Mining equipment, Construction equipments, Steel mills, Garbage compactors , Port handling equipments, Material handling equipments, Industrial applications, Machine building application to name a few from our client list.**
